## **StonePro Product Line**

- While we have incurred several raw material price increases over the past 3 years, we will continue to hold our pricing to the Artisan Members (Soapstone Wax excluded)
- We will provide product specific resources to Artisan Members to reinforce the advantages available to them via Stone Pro, most notably we will feature our Porous Pro Sealer as an excellent choice to seal problematic Quartzite countertops.

***Thank you for giving us the opportunity to service the Artisan Group members. We will continue to explore ways to maximize the value StonePro brings to the Artisan Group Members.***
